

at least one support coupled to the plate for supporting a plant pot, the at least one support makes enough space for reserving fluid in the tray.

~~(one end of the at least one wick being inserted into a bottom hole of the plant pot, the plant pot directly sits on the supports, the other end of the at least one wick reaching to the bottom of the plate, between side walls of pot and plate having a clearance/distance, so that air flow/ventilate under the plant pot thoroughly.)~~

23. Canceled.

24. Withdrawn

25. A self watering tray for a plant pot, comprising:

a plate, the plate having side walls and a bottom wall, the ~~(sharp)~~ shape of the plate is different with a plant pot, ~~(part of the side walls support a plant pot)~~ the side walls of the plate support a pot; and

at least one wick or the wick with a tube accompanied with the plate which provides a fluid conduit capable of sucking fluid from the plate.

27. A self watering tray for a plant pot, comprising:

a plate, the plate having side walls and a bottom wall, the plate holding fluid; and

at least one leg coupled to the plate, the at least one leg having two sections, up section and low section, the up section is smaller than the low section, a shoulder between the up section and the low section supporting a plant pot.

28. The tray of claim 25, further comprising at least one notch(s), the at least one notch disposed on the up edge of the side walls of the plate for holding a plant pot and air flowing in and out of the tray.

29. The tray of claims 1, ~~(24,)~~ and 27, further comprising a fluid intake lip,

the fluid intake lip disposed on the side walls of the plate, so that fluid can easy be added into the plate through the fluid intake lip.

32. Withdrawn.

40. Withdrawn.

44. The tray of claim 27, wherein the at least one leg filled with a fluid sucking material which provides a fluid conduit capable of ~~(draining fluid into the plate and)~~ sucking fluid from the plate.

45. The tray of claim 27, wherein a wick being attached on the up section(  
~~part of the wick with the up section being inserted into a bottom hole of a plant pot,~~  
~~left part of the wick reaching to the bottom of the plate)~~ which provides a fluid conduit capable sucking fluid from the plate.

46. The tray of claim 25, further comprising (a) at least one rod, the at least one rod disposed on the up side of the side walls of the plate for holding a plant pot.

## Claims

- ~~Sub E1~~
1. A self watering tray for a plant pot, comprising:  
a plate, the plate having side walls and a bottom wall, the plate holding fluid; and  
at least one wick accompanied with the plate which provides a fluid conduit capable of sucking fluid from the plate; and  
at least one support coupled to the plate for supporting a plant pot, the at least one support makes enough space for reserving fluid in the tray.

23. Canceled.

24. Withdrawn

- ~~Sub E2~~
25. A self watering tray for a plant pot, comprising:  
a plate, the plate having side walls and a bottom wall, the shape of the plate is different with a plant pot, the side walls of the plate support a pot; and  
at least one wick or the wick with a tube accompanied with the plate which provides a fluid conduit capable of sucking fluid from the plate.

- ~~Sub E3~~
27. A self watering tray for a plant pot, comprising:  
a plate, the plate having side walls and a bottom wall, the plate holding fluid; and  
at least one leg coupled to the plate, the at least one leg having two sections, up section and low section, the up section is smaller than the low section, a shoulder between the up section and the low section supporting a plant pot.

- ~~42~~
28. The tray of claim 25, further comprising at least one notch, the at least one notch disposed on the up edge of the side walls of the plate for holding a plant pot

and air flowing in and out of the tray.

29. The tray of claims 1, and 27, further comprising a fluid intake lip, the fluid intake lip disposed on the side walls of the plate, so that fluid can easy be added into the plate through the fluid intake lip.

32. Withdrawn.

40. Withdrawn.

44. The tray of claim 27, wherein the at least one leg filled with a fluid sucking material which provides a fluid conduit capable of sucking fluid from the plate.

45. The tray of claim 27 wherein a wick being attached on the up section which provides a fluid conduit capable sucking fluid from the plate.

46. The tray of claim 25, further comprising at least one rod, the at least one rod disposed on the up side of the side walls of the plate for holding a plant pot.
